Don't know if you still need this. We spoke to Reg 3 in follow up to our Monday conversation. They think the record speaks for itself so they do not support sending in comments now on Chapter 4. They also have workload concerns because they are all focused on the 309 letter. (I told them we would take a cut at a draft of Chapter 4 comments if the decision was made to do them.) Also, they do not think the Corps or FHwy would be interested in a technical meeting on air issues because they both think its beyond the scope of this EIS. You may want to discuss these points at the meeting this evening.
